Civil No. 01-640-RE

**JOINT ~~PROPOSED~~ ORDER  
FOR 2009 SPRING  
OPERATIONS**

NWF et al., the State of Oregon, the Nez Perce Tribe, and the Federal Defendants submit the following Joint (Proposed) Order for 2009 spring spill operations for the Federal Columbia River Power System ("FCRPS").

In 2005, this Court granted in part, and denied in part, Plaintiffs' motion for preliminary injunctive relief seeking to alter FCRPS operations during the spring and summer of 2006. See Doc. 1221. The Court adopted the Federal Defendants' proposals for the amount and timing of spring and summer spill at FCRPS dams with two exceptions. Id. at 11. After commencement of spill, Federal Defendants were directed to provide the court with a monthly written report describing the implementation and progress of the spill program. Id.

Similar spring and summer operations were implemented in 2007 pursuant to an agreement between the Bonneville Power Administration (BPA), the Confederated Tribes of the Warm Springs Reservation, the Nez Perce Tribe, Confederated Tribes of the Umatilla Indian Reservation, Confederated Tribes and Bands of the Yakama Nation, and Confederated Tribes of the Colville Indian Reservation. See Doc. 1347 at 3. On May 23, 2007, the Court adopted the 2007 operations agreement as an order of the Court.. See Opinion and Order (May 23, 2007).

At a December 12, 2007 status conference, Federal Defendants offered to continue the 2007 spring and summer operations if Plaintiffs would agree to not seek a preliminary injunction until after issuance of the 2008 BiOp. In agreeing to work toward this goal, Plaintiffs' recognized that any agreement for 2008 operations "would essentially continue - subject to discussion of limited changes necessary to accommodate new structures and perform essential research - the court-ordered

operations from 2007.” See Plaintiffs’ January 11, 2008 Letter. The 2008 Fish Operations Plan, incorporated into the Court’s Order on 2008 Operation, recognized the operational adjustments necessary to perform this research and accommodate structural changes. See Doc. 1409, Attachment 1. On February 25, 2008, this Court entered the joint proposed order for 2008 spring and summer operations. Doc. 1423.

In a February 18, 2009 letter to counsel, the Court asked Federal Defendants to agree to “continue recent court-ordered spill operations for Spring 2009.” See Doc. 1682 at 2. At the March 6, 2009 hearing, counsel represented that Federal Defendants would abide by the Court’s request to continue court-ordered spring spill operations subject to modifications necessary to accommodate new structures and perform essential research. See Tr. at 167. The 2009 Spring Fish Operations Plan reflects these changes and has been provided to TMT and RIOG. All parties have been provided the opportunity to review the 2009 Spring Fish Operations Plan

THEREFORE, in light of this prior history and in the interests of avoiding further litigation, the undersigned parties stipulate as follows:

1. Scope: The parties’ agreement on spring 2009 spill operations and the Court’s entry of the joint proposed order shall not be construed as a concession or preliminary assessment of the merits of any parties’ claim concerning the 2008 Biological Opinion or Action Agencies’ Records of Decision as set forth in the parties’ pending cross-motions for summary judgment and the Plaintiffs’ motion for preliminary and/or permanent injunctive relief.
2. Operations: FCRPS spring 2009 spill operations shall be conducted as set forth in the 2009 Spring Fish Operations Plan, incorporated herein by reference. To the

extent hydro-power operations are not specified in the 2009 Spring Fish Operations Plan, Federal Defendants shall operate the FCRPS consistent with the 2008 Biological Opinion and/or other operative documents necessary to implement that Biological Opinion, unless otherwise specified herein.

3. Timing: This Order applies to spring spill operations for 2009 only and shall continue until the transition date from spring spill operations as set forth in the 2009 Spring Fish Operations Plan, unless this Court issues an opinion on the pending cross-motions for summary judgment prior to that transition date. If the Court issues an opinion granting, in whole or in part, the plaintiffs' pending motions for summary judgment, this Order shall remain in effect until replaced by a further order of the Court. If the Court issues an opinion granting the federal defendants' pending cross-motion for summary judgment, this Order shall terminate on the date the Court issues such a ruling without prejudice to the right of any party to seek emergency or other appropriate relief in any forum.

4. In-Season Adjustments: As set forth in the 2009 Spring Fish Operations Plan, Federal Defendants will utilize the existing Regional Forum committees to make in-season adjustments.

5. Standard Reporting Requirement: Federal Defendants shall provide the court with a written report describing the implementation of the 2009 Spring Fish Operations Plan, beginning May 15, 2009, and monthly intervals thereafter until satisfaction of the earlier of the conditions in Paragraph 2. Should the agencies encounter a situation similar to that which occurred on April 3, 2007, which the Court characterized as "placing power needs before the needs of listed species", Federal

Defendants shall notify the Court and the other parties promptly and shall propose mitigation measures, if any, that may be appropriate as soon as practicable.

6. Emergency Reporting Requirements: Federal Defendants shall take all reasonable and practicable steps to notify the Court and the parties prior to any declared system emergency. If unforeseen circumstances arise that preclude Federal Defendants from notifying the Court and the parties prior to a declared system emergency, they shall report those actions directly to the court as soon as practicable.

Dated this 10<sup>th</sup> day of April, 2009.
